

**A B S T R A C T****RECOVERING MANAGEMENT IN A COMMUNICATION UNIT TERMINAL**

A communication unit with a recovering management terminal for handling  
5 deleted items, and having means to recover and re-install deleted items in  
their original location. In communications units there has long been a need for  
better handling of deleted items as well as easier procedures for deleting  
items. With the claimed invention a user of a communication unit will easily  
10 delete items of any kind without the need for numerous confirmations to make  
certain the user really wants to delete the selected item. If the user should  
unintentionally delete an item or later regrets a deletion he/she can with the  
claimed recovering management terminal recover and re-install the item in its  
original location.
